SPARKLE

HIGHLY CONCENTRATED LIQUID PRE-SOAK FOR SILVERWARE AND FLATWARE.

WHAT DOES IT DO?

SPARKLE is a concentrated liquid detergent and detarnisher for your dishwashing system. It removes tough food soils from stainless flatware or silver. Simply soak utensils in a hot water solution of SPARKLE before each machine washing. The stainless and silver will shine as never before.

HOW IS IT USED?

STAINLESS FLATWARE - prepare a hot water solution containing 1 to 2 ounces of SPARKLE per gallon in a dishpan or bus tub. Soak flatware for several minutes in the solution, sort, and place stainless in utensil cups and cycle through the dishwasher. **SILVERWARE** - line a dishpan or bus tub with clean aluminum foil or place clean detarnishing plates in the bottom. Prepare a hot water solution containing 1 to 2 ounces per gallon in the container. Immerse silverware completely in the solution and allow to soak for several minutes. Remove and rinse thoroughly, place in utensil cups and cycle through the dishwasher.

PACKAGING

SPARKLE is available in 1 gallon, 5 gallon, and 55 gallon containers.
